

CEMENT SUPPLY NOW AVAILABLE

City Engineer Finds One
Company Asking 'Time'
Can Get Material

OTHERS WELL SUPPLIED

But Parker-Washington Com-
pany Has Order It Cannot
Get Filled, It Claims

That all paying contractors are obtaining cement except P. P. McCormick—the Parker-Washington Paving company—that 415,000 barrels of cement is being shipped each month by the cement companies operating within a reasonable distance from Tulsa; although the Parker-Washington company has an order for 10,000 barrels with it, the Ada Portland Cement company is shipping large quantities to Alabama on a contract of more recent date than that of the Parker-Washington company, is the substance of a report written Wednesday by City Engineer C. E. Briggs.

The report was prepared after the action of the mayor and city commissioners Tuesday morning in refusing to grant an extension of time to the Parker-Washington company in defaulting on its contract. The contracts were let last April. William Fuller, representing the paving company told the commissioners his company was unable to obtain materials and that its scope is narrowed by the present financial stringency.

Cement Available.
Griggs' report indicates that cement is now available for the Parker-Washington company to complete its present contracts and that cars may be obtained in which to transport it, but that the paving company is not making a serious effort to obtain its pro rata of the cement.

The report explains that the contracts call for 150 working days. This determined by excluding Sundays, legal holidays, bad weather and delays due to failure to obtain materials, provided the contractor has made due effort to get materials. Striker also give them an extension of time.

"In figuring the termination of their contracts, I have excluded all these reasons, together with days on which the temperature was below 32 degrees.

Cement Main Alibi.
"Their strongest and best plea is that they have been unable to get cement. From the investigation I have made in the last 30 days, we find that the cement situation is indeed, acute. The railroads are filling only 30 per cent of the car orders at the mills. Yet, I find that the mills in contiguous territory are shipping considerable cement. I have reports from the plants at Humbolt, Independence, Chanute, Dewey, Fredonia, Ada, and Iola, which indicate that 1,600 cars of cement are being shipped each month. This amounts to about 415,000 barrels of cement. "There is no doubt but what the cement trust is favoring concrete paving in preference to asphalt, yet all contractors except the P. P. McCormick company are getting some cement. It requires but five per cent of the cement being shipped from the above mills for one month to complete their contracts. "Reports indicate that the Ada plant shipped 535 carloads of cement in the last six weeks. Eleven cars that were furnished were not loaded by the mill, indicating that they had loaded out the storage supply. "The McCormick company has an order for 10,000 barrels of cement at this plant. It claims to be receiving practically no cement, yet the Ada plant is shipping, or was shipping at a very recent date, cement in large quantities to points in Alabama on contracts of more recent date than the McCormick company's."

If the city enforces the penalty against the Parker-Washington company for alleged unnecessary delays, the city will be richer by more than \$6,000, according to the city engineer.

TAKE SALTS TO FLUSH KIDNEYS

Eat Less Meat If You Feel
Backache or Have Bladder
Trouble.

Meat forms uric acid which ex-
cess and overworks the kidneys in
their efforts to filter it from the sys-
tem. Regular excess of meat must
flush the kidneys occasionally. You
must relieve them like you relieve
your bowels, removing all the acids,
waste and poison, else you feel a
dull misery in the kidney region,
sharp pains in the back or sick head-
ache, dizziness, your stomach aches,
tongue is coated and when the
weather is bad you have rheumatic
twinges. The urine is cloudy, full of
sediment; the channels often get ir-
ritated, obliging you to get up two
or three times during the night.

To neutralize these irritating acids
and flush out the body's urinous
waste get about four ounces of Jar
Salts from any pharmacy; take a
tablespoonful in a glass of water be-
fore breakfast for a few days and
your kidneys will then act fine and
bladder disorders disappear. This
famous salt is made from the acid
of grapes and lemon juice, combined
with lithia, and has been used for
generations to clean and stimulate
sluggish kidneys and stop bladder
irritation. Jar Salts is inexpensive,
harmless and makes a delightful or
fervent lithia-water drink which
millions of men and women take now
and then, thus avoiding serious kid-
ney and bladder diseases.—Adv.

FREED FROM THE PHYSIC HABIT

Says her constipation ended and
stomach trouble left. Tells how.

"I had stomach trouble and constipa-
tion very bad for a long time. Tried
everything, but kept getting worse.
I could hardly eat anything and my bowels
wouldn't move unless I took a physic
every day. I have to support myself and
two children, yet I couldn't work.
"The first bottle of Mils Emulsion did
wonders for me, and I have continued to
use until now I feel fine and can work
every day. I have a good appetite, my
stomach trouble has left me, and my
bowels are as regular as clock work."
Mrs. Mary Widener, 101 S. Court St., Sioux
City, Iowa.

Mrs. Widener found out what all suf-
ferers should know—that pills, salts and
physics do not end constipation, but usu-
ally make it worse.
Mils Emulsion is a pleasant nutritive
food and corrective medicine. It re-
stores healthy, natural bowel action, doing
away with all need of pills and physics.
It promotes appetite and quickly puts the
digestive organs in shape to assimilate
food. As a builder of flesh and strength,
Mils Emulsion is strongly recommended
to those whose sickness has weakened
and is a powerful aid in resisting and re-
pairing the effects of wasting diseases.
Chronic stomach trouble and constipation
are promptly relieved.
This is the only solid emulsion made,
and so palatable that it is eaten with a
spoon like ice cream. Truly wonderful
for weak, sickly children.
No matter how severe your case, you
are urged to try Mils Emulsion under
this guarantee: Take six bottles with
you, use it according to directions
and if not satisfied with the results, your
money will be promptly refunded. Price

TULSANS BANDED IN RELIEF DRIVE

Local Committee to Help
Raise 3 Million for
Europe Is Picked

Tulsa is organized this morning to
shoulder her just part in America's
greatest Christmas gift to the world
—the feeding of 3,500,000 destitute
children of Europe through the bar-
ren winter months ahead.

Committee Complete.
The Tulsa committee to direct the
local section of the nation-wide
campaign to be launched next Sun-
day by the eight leading welfare or-
ganizations of America, operating
jointly under the general title of the
European Relief Council, was com-
pleted yesterday. It comprises the
following prominent Tulsans: J. A.
Hull, chairman; C. F. Farren, vice
chairman; N. H. Graham, treasurer;
C. E. Buchner, representing the Y.
M. C. A.; secretary; Al Farmer, rep-
resenting Tulsa chapter, American
Red Cross; R. L. Jones, state Red
Cross; Emil Offenbacher, Jewish or-
ganization; R. M. Gallagher, Knigh-
ts of Columbus; Miss Edna
Pyle, Y. W. C. A.; and Ralph Tal-
bot.

Inaugurated Sunday by appeals
from the pupils of all leading
churches in Tulsa, the campaign will
be pushed throughout the Christ-
mas period by every available
agency of the combined charitable,
welfare and relief organizations
whose national headquarters have
joined hands to effect the world's
greatest single enterprise for the re-
lief of human suffering.

The Tulsa Rotary club in meeting
yesterday unanimously voted to fol-
low the lead of Rotary clubs
throughout the United States, and
place its every energy behind the
movement. C. E. Buchner, secre-
tary of the local committee of the
council, addressed the members.

The Tulsa Y. W. C. A. and other
prominent local women's organiza-
tions, will play a conspicuous part in
the campaign.

Immediately following organiza-
tion of the Tulsa committee, Chair-
man Hull made public the following
statement briefly outlining the need
and the character of the oncoming
campaign.

3 Million Face Starvation.
"Some 3,500,000 wail, undernour-
ished and destitute children today
face starvation and miserable death
in the severe winter that is now set-
tling down on central Europe. Their
governments, struggling to recuperate
from the devastation of six
years of war and disorganization, are
powerless to give them aid. The
United States is the sole hope of
these children.

"Recognizing the imminence of an
appealing world tragedy if im-
mediate measures on a large scale were
not taken to prevent it, eight of
America's leading philanthropic or-
ganizations, headed by Herbert
Hoover's American relief adminis-
tration, which during the past two
years has saved 6,000,000 children

of central Europe from starvation,
have joined in a single great appeal
to the American people. But \$33-
000,000 is needed of America's wealth
to tide 3,500,000 children through
the winter and spring until the com-
ing of their own harvests. The eight
national welfare organizations joined

in this greatest humanitarian effort
are: The American Relief admin-
istration, the American Red Cross,
the Y. M. C. A., the Y. W. C. A., the
Federal Churches of Christ in
America, the Knights of Columbus,
the American Friends' service com-
mittee (Quakers), and the Jewish

Joint Distribution committee. These
constitute the European relief coun-
cil."
